*Together we fly!*

The centre based program operates at **Castlereagh School** in Willetton.

Children with complex communication and learning needs can access this program from their Kindergarten year.

Educational programs are offered up to five days per week and staffed by early childhood special education teachers and education assistants.

Children may attend their local kindergarten (one day) or preschool up to two days to complement our centre program.

When attending their local school, students are supported by a Castlereagh Early Learning Centre education assistant and the class teacher.

For children with high medical needs, our onsite nurses provide outstanding health care, support and help to families.

The emphasis is on the development of communication, fine motor, gross motor, social, thinking and learning skills in a play based, communication rich environment.

Our educational program is based on the Early Years Learning Framework and the West Australian Curriculum.

All students have an Individual Education Plan (IEP) which highlights specific goals designed for each child with their parents and therapists.
